

## **Holonyx Partner Program Offering**

The Holonyx Partner Program is designed to make your partnership with Holonyx as productive—and profitable—as possible. We know that our Partners play a critically important role in satisfying our customers’ needs, and we are deeply committed to their success. Our Partner Program provides all the support, products and tools that you need to increase your profitability and advance your business.

As a Holonyx Partner, you can provide advanced solutions to your clients by implementing proven Linux and open source applications. You can instantly expand your product offering to include many new product and support solutions for your customers. Our services and products are focused to assist you as a Partner in delivering these solutions to your clients.

### **Services**

- Remote support of all major Linux OS distributions and open source IT solutions on a per incident basis (\$125 per incident.) On-site support is also available.
- Network and system consulting for open source solutions and environments

### **Products**

Holonyx offers fully supported versions of the following IT open source solutions:

- SME Server for small-medium business server
